# Rio Bravo Activity Center

## October 2015

October was another fun filled month at Rio Bravo Activity Center. The children had a couple of guest visitors. One was Donna Magnon, she is an active community volunteer. Ms. Magnon

spent an afternoon teaching the kids about worms. They also made their own worm out of clay and enjoyed cookies after some good hand washing. The day was sponsored by Texas Farm Bureau. The children had the annual Halloween Party with food, candy and dancing. They proudly made some jack-o-lanterns the previous week.

*Rio Grande International Study Center thought the kids the importance of the Rio Grande and showed the kids how to test the water of the Rio Grande.*
