Rio Bravo Activity Center

November
2015

Crafts are always a fun activity the children enjoy doing. The creativity shown among each other is an inspiration. (turkey drawing/coloring with thankful messages)

Children enjoyed a thanksgiving lunch with some turkey and all the trimmings prepared by the staff while some of the kids took turns saying what they were thankful for.

There is always something to be thankful for,

Making the best of after school afternoons

Rio Bravo children look forward to all the activities the center has. During no class days they enjoy being at the center all day. Using the computers to either work on school work or play mind craft is a favorite. Monthly movie days are always enjoyed. The Children are reminded to always be courteous to each other and respect one another at all times.

December will be a very busy and fun month they surely are looking forward to.
